The Sports Programme with a difference!

The concept of **Playball** started more than 30 years ago when a sport coach developed it in a sport environment. Today, after all these years, **Playball** is still run by the same principles: we believe that the programme makes an excellent contribution to every part of a young child's life by developing physical skills.

The success of the programme does not start and end with the development of motor skills though, but rather lies in its approach. At **Playball** your child will be coached positively and encouraged to develop life skills which will improve self image. We believe that success - however small - leads to confidence and further success.

Playball is an educational programme. Sessions are structured and coaches are handpicked and trained frequently.

A selection of different sports are presented during the **Playball** programme, eg cricket, soccer, tennis, hockey, baseball, basketball and netball. Children learn basic rules, game plans and techniques of each sport.

At **Playball**, your child will extend basic movement experience. This means that your child will improve physical skills to an extent which will enable him/her to participate in sport with confidence. More importantly - your child will be exposed to certain developmental skills which will assist in school readiness and as a result will probably show improved results in the classroom!

Our mission is to develop a LOVE FOR SPORT AND MOVEMENT, therefore we give the children a lot of acknowledgement and the atmosphere in the class is positive and uplifting

PLAYBALL is **PROGRESSIVE**... Children progress from an informal introduction to movement and ball skills, to more structured sports participation.

PLAYBALL consist of various stages - each offering the relevant age group a program focusing on its specific developmental level:

- 2 Can Do 2-3 years
- Watch Me @ 3 3-4 years
- Dinkies 4-5 years
- Preps 5-6 years
- Players 6-7 years
- Pre-Season Sports Program 7-9 years

PLAYBALL is **EDUCATIONALLY BASED.**

Positive coaching methods are used to develop life skills such as independence, self-confidence, courage, discipline, concentration and listening skills, good sportsmanship, responsibility and social interaction.

PLAYBALL

The Programme which offers more !

PLAYBALL is **PROFESSIONAL**... A research and development team has refined the program over a period of more than 30 years and are continually upgrading the content of all stages presented.

PLAYBALL is **SPECIALISED**... Coaches are trained regularly and use specialised coaching methods as well as specially designed sporting equipment.

PLAYBALL sets **HIGH STANDARDS**... Small classes that are age specific. Your child will receive 2 reports and a certificate at the completion of each stage.

PLAYBALL is **RESULT ORIENTATED**... Our starting point is self-confidence. Fast learning and healthy relationships are a result of good self-confidence on the sports field.

PLAYBALL is **PRIORITY**... Using sport as the means, **PLAYBALL** provides children with an opportunity to develop every aspect of their lives.

Playball

The first programme to recognise and actively incorporate the development of *life skills through sport skills*

As an adult, you probably never needed a programme like **Playball**. You developed adequately and did quite well in sport and were successful in the classroom.

WHY IS PLAYBALL NECESSARY FOR YOUR CHILD?

Our technological age has so many advantages, but it also creates a disadvantage regarding our children's physical development. **Motor development** forms the basis of all learning and causes our teachers to be concerned as children are becoming increasingly weak in this area. Every second child has a learning problem and sport coaches complain that young children have not mastered basic skills and that the standard is dropping by the year. Parents are also worried about children who are overweight and not interested in sport or physical activity. Computer games, less freedom due to security, an increase in single children and a higher academic standard with tons of homework which takes up all free time does not reflect positively on the current situation.

THIS IS WHY PLAYBALL IS SO VALUABLE IN THE LIFE OF YOUR CHILD: it motivates children to participate in sport and sparks an interest in physical activity because children are more successful from the word go.

GENERAL

At **Playball** we only teach up to 8 children per session - even less in younger age groups. This guarantees individual attention and results. Children receive progress reports and are rewarded with certificates and/or medals on completing a stage. Parents receive information and newsletters regularly to keep them updated about development. **Playball** Coaches are partners in education who work alongside school staff to give your child the best chance in developing optimally.

Were to go from here? . . .

If you want to give your child the best gift imaginable i.e. the opportunity to develop life and sport skills, complete the enrolment form on the reverse side
